Agile

Agile Manifesto:

We are uncovering better ways of developing software by doing it and helping others do it. Through this work we have come to value:

That is, while there is value in the items on the right, we value the items on the left more.

Agile Principles

Benefits of Agile

Transparency

Predictable Costs and
Schedule

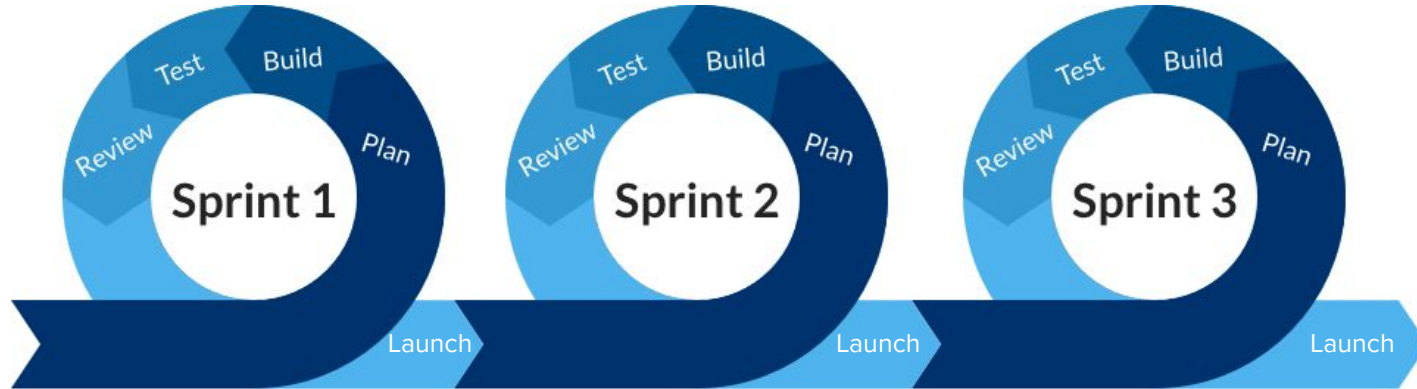

Allows for Change

Improves Quality

How to implement Agile

Practices of Agile

Daily standup

Sprints

Splitting user stories

Pair programming

Test-driven
development
